

Water supply work approval to take groundwater under a domestic and stock right

Use this form to apply for a new or amended water supply work approval under a domestic and stock right under section 92 of the *Water Management Act 2000* (WM Act).

For information about water supply work approvals, go to water.dpie.nsw.gov.au/our-work/licensing-and-approvals

A water supply work approval to take groundwater under a domestic and stock right allows you to construct a work which takes water from an aquifer, such as a water bore.

Water taken from the work can only be used for domestic consumption and stock watering.

Who can apply?

Any person can apply for a water supply work approval to take groundwater under a domestic and stock right.

Only the owner or occupier of a landholding has a domestic and stock right to take and use water for domestic consumption and stock watering.

Who can use this application form?

Responsibilities for granting and managing water supply work approvals and water use approvals are shared between the NSW Department of Climate Change, Energy, the Environment and Water (the department) and WaterNSW.

This application form is for use by the department's customers:

- government agencies, including other NSW government agencies, local councils, and the Commonwealth
- state-owned corporations
- water utilities, water supply authorities and licensed network operators under the *Water Industry Competition Act 2006*
- mining activities

- irrigation corporations
- public schools and hospitals
- Aboriginal communities and businesses.

If you are not a customer of the department, your one-stop-shop for licensing services including water supply work approvals and water use approvals is WaterNSW. Go to waternsw.com.au

- ☐ domestic consumption ☐ stock watering ☐ domestic consumption and stock watering

Section F: Work for taking groundwater

Tick the appropriate box.

I want to:

F1 ☐ apply for a **new** approval for a water supply work to take groundwater under a domestic and stock right.

Is this an application to replace an existing bore? ☐ Yes ☐ No

F2 ☐ apply to **amend** an approval for a water supply work to take groundwater under a domestic and stock right (i.e. change the details of an existing water supply work approval).

If you selected F2 you only need to answer questions F4 –F6.

F3 Is the work new or does it already exist? ☐ new work ☐ existing work

F4 If the work already exists what is the licence or water supply work approval number?

F5 If you want to amend an approval, briefly describe the changes you want to make

F6 How many works are you seeking approval for?

F7 Provide details of the location of the proposed work for taking groundwater.

If the proposed work extends across more than two properties, photocopy/print multiple copies of this page.

Address of property 1:							
	Lot	Section	DP	Parish	County	Easting (GDA94) or latitude	Northing (GDA94) or longitude
Work 1							
Address of property 2:							
	Lot	Section	DP	Parish	County	Easting (GDA94) or latitude	Northing (GDA94) or longitude
Work 2							
F8 Type of proposed work for taking groundwater under a domestic and stock right. Tick the appropriate box. ☐ bore ☐ excavation ☐ spear point ☐ artesian bore ☐ well ☐ collector system							
F9 If the work is a bore would it access the Great Artesian Basin? ☐ Yes ☐ No							
F10 Proposed depth of bore (m)				F11 Maximum pumping rate of proposed work (litres/sec)			
F12 If this application is granted, it will allow construction of a sub-artesian bore up to 152 mm nominal bore casing, unless otherwise specified. Specify proposed dimensions if the nominal bore casing is proposed to be greater than 152 mm mm							
F13 Do you propose to supply other landholders with groundwater from this bore? ☐ Yes ☐ No							
F14 If yes, how many landholders will be supplied with groundwater from this bore?							
F15 If you are applying for an excavation what is the proposed: length (m) width (m) depth (m)							
F16 Is the work/s proposed to be located within 40 m of a creek, stream, river, lake, wetland, swamp, marsh or the coastline? ☐ Yes ☐ No							
F17 If yes, what is the name of the water source referred to in F16?							

F18 Distance of proposed work from property boundary? (km or m)		
F19 Distance of proposed work from any site of potential contamination that has or may contaminate the groundwater into which the bore will be constructed, such as a septic, sewerage, stormwater or other wastewater storage or conveyancing works, or any other waste repository (such as a landfill, dump, burial area), or known site of contamination (such as feedlots, on-site chemical storage area, old or existing livestock dip or spray control areas, petrol station or industrial complex) Distance (km or m) Type of contamination (describe): ☐ Not applicable ☐ Don't know		
F20 Is the work proposed to be located in an underground mining area?	☐ Yes	☐ No
F21 Provide name and contact details of proposed bore driller:		

Section G: Environmental issues

Tick the appropriate boxes.

G1 Does the property have any of the following features/characteristics? Please 'tick' the appropriate boxes. ☐ Salinity ☐ Acid sulphate soils ☐ Sodic soils ☐ Waterlogging ☐ Erosion ☐ High water table ☐ Land subsidence ☐ Contaminated land ☐ Other (If 'other', please specify) Supporting documentation is required and must be submitted with this application if any of the features/characteristics above are identified.

Information to assess likely impact on threatened species, populations or ecological communities

G2 Would you need to clear or disturb any native vegetation to construct the work? ☐ Yes ☐ No
G3 If yes, what area of vegetation would need to be cleared or disturbed? (ha)
G4 If yes, what type of vegetation would need to be cleared or disturbed? <i>Note: If more than one type of vegetation needs to be cleared then show the different types on the map.</i>
G5 If yes, what is the dominant species of vegetation that would need to be cleared or disturbed?
G6 Are any threatened species, populations, ecological communities and their habitat found within the site? ☐ Yes ☐ No
G7 Would you need to remove bush rock? ☐ Yes ☐ No
G8 Would you need to remove dead wood and dead trees? ☐ Yes ☐ No
G9 Would there be any influences on threatened species, populations, ecological communities and their habitat from off-site impacts of the proposal (water flows downstream, noise from pumps) ☐ Yes ☐ No
Please add any other comments (including the occurrence of any of the above features/characteristics on neighbouring properties, if known)

Information to assess likely impact on an area of known Aboriginal cultural significance

G10 Would your proposed water supply work impact on an area of known Aboriginal cultural significance? ☐ Yes ☐ No
