Introduction

We have prepared this annual statement for 1 July 2024 to 30 June 2025 according to the Independent Pricing and Regulatory Tribunal of NSW (IPART) output measures and performance indicators set for the Water Administration Ministerial Corporation (WAMC) for the 2021-25 determination period.

IPART output measures 65 and 66 relating to WAMC activity ‘W06-07 Cross-border and national commitments’ require the NSW Department of Climate Change, Energy, the Environment and Water to publish an annual statement on its inter-jurisdictional participation and performance against interstate agreements, including an IPART performance indicator annual statement (Table 1)¹.

Table 1. WAMC activity W06-07 output measures and performance indicators for the 2021-25 determination period

Activity	Activity description	Output measures	The rationale for output measures	The outcome that the outputs will help deliver
W06-07 Cross-border and national commitments	The development of interstate water-sharing arrangements and the implementation of operational programs to meet national and interstate commitments	Output measure OM65 The department publishes on its website an annual statement on inter-jurisdictional participation and performance against interstate agreements Output measure OM66 Additional IPART performance indicator annual statement published	Improved transparency for stakeholders	National and interstate agreements successfully negotiated and implemented

¹ No performance indicators were set by IPART for the 2021–25 reporting period.

Participation against intergovernmental agreements: implementation through committees and working groups

The NSW Government must participate in several committees and working groups to implement cross-border water-sharing arrangements and elements of the Murray–Darling Basin Plan as well as manage the Great Artesian Basin and negotiate and progress national water matters. NSW Government representation at these meetings is essential to meet the government’s obligations under intergovernmental legislation and agreements and ensure that the interests of NSW communities and stakeholders are protected.

Table 2 provides an overview of key intergovernmental forums that implement and operationalise the Basin Plan and other key agreements to support water management.

Table 2. NSW participation in key decision-making forums for the operationalisation of intergovernmental agreements for managing water

Committee	Key programs/outcomes/purpose	Participation in meetings
Murray–Darling Basin Ministerial Council	Top-tier governance group for Murray–Darling Basin water management established by the Murray–Darling Basin Agreement (Schedule 1 of the Commonwealth <u>Water Act 2007 (Water Act)</u>). The key functions and powers of the Murray–Darling Ministerial Council are: • Consideration and determination of policy outcomes and objectives relating to water management in the Murray-Darling Basin • Determination on matters specified in the Murray–Darling Basin Agreement • Approval of the annual corporate plan, budget and asset management plan prepared by the Murray–Darling Basin Authority (MDBA) • Agree to amendments to the Murray–Darling Basin Agreement.	Participation: N/A (No Ministerial Council meeting was held)

Committee	Key programs/outcomes/purpose	Participation in meetings
Water Ministerial Council	Top-tier governance group for national water management, established under Australia's federal relations architecture and reporting to National Cabinet. The key functions and powers of the Water Ministerial Council are to: • Coordinate water resource reforms and other water-related matters requiring national, collaborative attention and action • Discuss strategic issues and agree to objectives and desired outcomes on national water reform. The Water Ministerial Council operates separately to the Murray–Darling Basin Ministerial Council (above), which continues to function as outlined in the Murray–Darling Basin Agreement and the <i>Water Act 2007</i> with a separate membership and Terms of Reference.	Participation: N/A (No Ministerial Council meeting was held)
Basin Officials Committee (BOC)	The BOC is established by the Murray–Darling Basin Agreement (Schedule 1 of the Water Act 2007). It is responsible for implementing policies and decisions of the Murray–Darling Ministerial Council on matters such as state water shares and the funding and delivery of natural resource management programs. It has powers and duties conferred to it under the Murray–Darling Basin Agreement and the Water Act and sets objectives and outcomes to be achieved by the MDBA in relation to river operations. In addition, the BOC facilitates cooperation and coordination between the federal authorities, the MDBA and the Basin states in managing the Basin water resources.	Participation: 100% Meetings held: 9 Meetings attended: 9 Workshops held: 0 Workshops attended: N/A Information on meeting discussions and outcomes in the publication Out of the BOCs where communiques have been agreed at the BOC meeting
BOC Alternates	• Tier 1 committee established by the BOC • Provides support and advice to the BOC regarding joint government business and any relevant Basin Plan matters	Participation: 100% Meetings held: 8 Meetings attended: 8 Workshops held: 6 Workshops attended: 6

Committee	Key programs/outcomes/purpose	Participation in meetings
Environmental Watering Committee	- Tier 1 committee established by the BOC - Provides support and advice to BOC regarding joint government business and any relevant Basin Plan matters related to managing environmental water	Participation: 100% Meetings held: 4 Meetings attended: 4 Workshops held: 0 Workshops attended: N/A
River Murray Operations Committee	- Tier 1 committee established by the BOC - Provides support and advice to BOC regarding River Murray operations	Participation: 100% Meetings held: 9 Meetings attended: 9 Workshops held: 0 Workshops attended: N/A
Joint Venture Budget and Performance Committee	- Tier 1 committee established by the BOC - Provides advice to BOC on budget matters relating to joint programs	Participation: 100% Meetings held: 9 Meetings attended: 9 Workshops held: 0 Workshops attended: N/A
Northern Basin Project Committee	- Tier 1 committee established by the BOC - Time-bound committee providing support and advice to the BOC on the implementation of the Northern Basin Toolkit measures under the Basin Plan	Participation: 100% Meetings held: 4 Meetings attended: 4 Workshops held: 0 Workshops attended: N/A
Capacity Policy Working Group	- Tier 1 committee established by the BOC - Time-bound committee overseeing the implementation of the Capacity and Delivery Shortfall Project and providing advice to the BOC on supply and demand options for the future management of delivery shortfalls, and reporting progress against and outcomes of the project work program	Participation: 100% Meetings held: 2 Meetings attended: 2 Workshops held: 1 Workshops attended: 1

Committee	Key programs/outcomes/purpose	Participation in meetings
National Water Committee (NWC)	The NWC was established by Commonwealth, state and territory ministers with responsibility for water for the purpose of progressing the National Water Initiative and other national agreements. It aims to enhance social, health, economic and environmental outcomes for current and future generations and achieve sustainable water management through inter-jurisdictional development, oversight, coordination and implementation of water reform policy	Participation: 100% Meetings held: 10 Meetings attended: 10 Workshops held: 0 Workshops attended: N/A
National Water Initiative Working Group (NWIWG)	The NWI Working Group was established by the National Water Committee to support the development of the National Water Agreement. It aims to assist in delivering updated national water reform policy by drafting the renewed agreement, providing recommendations, and coordinating input across jurisdictions and advisory bodies, supporting a collaborative and evidence-based approach to policy development.	Participation: 100% Meetings held: 14 Meetings attended: 14 Workshops held: 1 Workshops attended: 1
Dumaresq-Barwon Border Rivers Commission (BRC)	The BRC is established by the <u>New South Wales — Queensland Border Rivers Act 1947</u>. The BRC implements the agreement made between NSW and Queensland governments in relation to: • sharing the waters of the rivers and streams that form or intersect the boundary between the 2 states and the associated groundwater resources • investigating, constructing, and operating works to conserve and regulate those waters where desirable.	Participation: 100% Meetings held: 3 Meetings attended: 3 Workshops held: 0 Workshops attended: N/A
Great Artesian Basin (GAB) Senior Officials Committee	The committee is established under the heads of agreement to support the delivery of the <u>Great Artesian Basin Strategic Management Plan</u>. It provides information and advice to GAB Ministers, so they are adequately informed when making decisions. The committee also oversees the development and implementation of policies and programs under the GAB Strategic Management Plan and other agreed measures to help governments sustainably manage water resources.	Participation: 100% Meetings held: 2 Meetings attended: 2 Workshops held: 0 Workshops attended: N/A

Performance against interstate agreements: program implementation and reporting

NSW is a party to several national and interstate agreements² for water sharing that span a range of water management agencies, purposes and geographical regions (see Appendix A – Examples of national and interstate agreements that involve NSW). For the 2024-25 reporting period, the department has worked with partner agencies to satisfy our commitments to implementing and operationalising these agreements. The following sections summarise this work.

Reporting

- Annual and 5-yearly monitoring, evaluation and reporting on Basin Plan implementation
 - Water take reports under the Basin Plan Sustainable Diversion Limits (s 71 of the Water Act)³
 - Milestone reporting as required by federation funding agreements to implement national and interstate commitments.
-

Project and program delivery

- Submission and accreditation of water resource plans
- Sustainable Diversion Limit Adjustment Mechanism projects in the southern Basin — for further information on project progress, see annual assurance reporting and six-monthly Basin Plan report cards
- Recovery of 450 GL of additional environmental water through the Resilient Rivers Water Infrastructure Program (and the former NSW Off-farm Efficiency Program)
- Northern Basin Toolkit measures and projects
- Working to mitigate delivery risks in the lower Murray system through the Capacity and Delivery Shortfall Program — see the MDBA website and the Water Delivery Optimisation Program
- Environmental water delivery in line with long-term water plans as required under the Basin Plan

² Including intergovernmental agreements, deeds, memorandum of understanding, protocols, and plans

Miscellaneous

- Responding to requests for information from the Inspector-General of Water Compliance (IGWC) — for IGWC publications see the [IGWC website](#)
- Implementing [reform to Murray–Darling Basin water markets](#) — see also [Water market reform: final roadmap report \(PDF 4.07 MB\)](#)
- Conducting water [stakeholder and community engagement](#) to support implementation of interstate and national agreements
- Contributing content to and reviewing the [Basin Plan Annual Report](#)³ (s 52A of the Water Act)
- Contributing to and reviewing the MDBA Basin Plan [report card for December 2024](#)⁴
- Delivering on NSW Government obligations of the [New South Wales—Queensland Border Rivers Act 1947](#) and [New South Wales – Queensland Border Rivers Intergovernmental Agreement 2008](#), including requirements to table reports and appoint the NSW Commissioner and Deputy Commissioner to the [Border Rivers Committee](#).

³ At the time of writing, the Basin Plan Annual Report for 2024-25 had not yet been published

Appendix A – Examples of New South Wales intergovernmental agreements and commitments

Australian Government

- Intergovernmental Agreement on a National Water Initiative (2004)
- Water Management Partnership Agreement between the Australian Government and the NSW DCCEEW in relation to planning and managing the transfer, delivery and monitoring of environmental water within NSW
- Healthy Floodplains Project – Project Schedule (of the Water Management Partnership Agreement)

Murray–Darling Basin jurisdictions

- Murray–Darling Basin Agreement (Schedule 1 of the Water Act)
- Intergovernmental Agreement on Murray–Darling Basin Reform July 2008
- Murray–Darling Basin Plan 2012
- Intergovernmental Agreement on Implementing Water Reform in the Murray–Darling Basin June 2013
- Telemetry Uplift Program – Project Schedule (of the Intergovernmental Agreement)
- Murray–Darling Basin Compliance Compact 2018

Murray–Darling Basin Authority

- A bilateral agreement with MDBA on Basin Plan commitments (Deed of amendment No. 2)
- NSW–MDBA agreement about updated, new or improved methods
- Collaboration protocol with the NSW DCCEEW

Queensland

- NSW–Queensland Border Rivers Intergovernmental Agreement 2008
 - NSW–Queensland Border Rivers Agreement (1946) (Schedule to the *New South Wales – Queensland Border Rivers Act 1947* (NSW))
 - Intergovernmental Agreement for the Paroo River between NSW and Queensland 2003
-

Australian and ACT governments

- Memorandum of understanding between the ACT and NSW on cross-border water resources (2006)
 - Queanbeyan Water Supply Agreement (2008)
-

Australian and Victorian governments

- Snowy Water Inquiry Outcomes Implementation Deed (2002)
-

Australian, Queensland, South Australian and Northern Territory governments

- Great Artesian Basin Strategic Management Plan (2019)
-

Funding agreements

During 2024–25, NSW was party to several funding agreements that helped resource the implementation of our national and interstate commitments. The Australian Government sets milestones detailing how each Basin state should implement the agreements.

Key agreements (federation funding agreements – environment) include:

- Restoring the upper Murrumbidgee River program (2024 – 2029)
- Murray-Darling Basin Telemetry Uplift Program (2024 – 2027)
- Implementing Water Reform in the Murray-Darling Basin (2024/25 – 2027/28)
- Off farm Efficiency Program
 - NSW State-led Murrumbidgee Irrigation Automation Finalisation Project
 - State-led NSW Nap Nap Station Water Efficiency Project

- Sustainable Rural Water Use and Infrastructure Program
 - NSW Toolkit projects (e.g. Reconnecting Watercourse Country, Pindari Dam cold-water pollution and fish-friendly water extraction projects, and streamlined delivery)
 - Murray and Murrumbidgee River Constraints Measures (Reconnecting River Country Program)
 - Accelerated funding: NSW supply and constraints projects (2021 – 2026)
 - Detailed assessments of projects (Mid-Murrumbidgee River Optimisation and Murrumbidgee Airspace Management Projects)
- Water for the Environment Special Account
 - Resilient Rivers Water Infrastructure Program (e.g. Murrumbidgee irrigation urban channel pipelines project and feasibility projects, and Building resilient infrastructure feasibility project)
 - Murray-Darling Basin Sustainable Communities (2024 – 2028)
