

Amend a water supply work and/or water use approval

Use this form to apply for an amendment to a water supply work and/or water use approval under section 107 of the *Water Management Act 2000*.

Water supply work approvals allow you to construct and use a work which takes water from a river, lake or aquifer. Examples of water supply works are water pumps, water bores, dams, weirs, irrigation channels, banks and levees.

Water use approvals allow you to use water on your land. Examples of water uses which require approval are irrigation, town water supply and power generation.
