

Available Water Determination Order for the NSW Murray Regulated River Water Source 2026

under the

Water Management Act 2000

I, Shahadat Chowdhury, having delegated authority, in pursuance of section 59(1)(a) of the *Water Management Act 2000*, make the following Order.

Dated this 15th day of April 2026.

Shahadat Chowdhury
Manager, Water Allocations

NSW Department of Climate Change, Energy, the Environment and Water - Water Group
(by delegation)

Explanatory note

This Order is made under section 59(1)(a) of the *Water Management Act 2000*. The object of this Order is to make an available water determination for various categories of access licences in the water sources identified in Schedule 1.

Available Water Determination Order for the NSW Murray Regulated River Water Source 2026

under the

Water Management Act 2000

1 Name of Order

This Order is the *Available Water Determination Order for the NSW Murray Regulated River Water Source 2026*.

2 Commencement

This Order commences on the 15th of April 2026.

3 Available water determination

This Order determines the availability of water in relation to the water source specified in Schedule 1, for the categories and subcategories of access licence specified in Schedules 2 on the terms specified in Schedules 2.

4 References to percentages and ML/unit share

In this Order:

- (a) in relation to licences with share components specified as megalitres per year (ML/year), a reference to megalitres per unit of share component (if any) is taken to be a reference to a percentage of the share component, where 1 ML per unit of share component is taken to equal 100% of the share component, and
- (b) in relation to licences with share components specified as a number of unit shares, a reference to a percentage of the share component (if any) is taken to be a reference to megalitres per unit of share component, where 100% of the share component is taken to equal 1 ML per unit of share component.

Note: Water sharing plans generally require available water determinations to be expressed as:

- (a) a percentage of the share component for access licences where share components are specified as ML/year, or
- (b) megalitres per unit of share component for access licences where share components are specified as a number of unit shares.

Schedule 1 Water sources

This Order applies to the NSW Murray Regulated River Water Source as identified in Clause 4 of the *Water Sharing Plan for the NSW Murray and Lower Darling Regulated Rivers Water Sources 2016*.

Schedule 2 Access licences and terms

Each amount specified in Column 2 applies to the adjacent category / subcategory of access licences specified in Column 1.

COLUMN 1	COLUMN 2
Category/subcategory of access licence	Volume per unit of access licence share component
Regulated river (conveyance)	0.0077 megalitre
Regulated river (general security)	0.02 megalitre

Note:

- (1) An available water determination made in relation to a particular category of access licence applies to all subcategories of that category, except to the extent to which this order provides otherwise, in accordance with section 59(1A) of the Water Management Act 2000.
- (2) This available water determination is in addition to any water allocation credited in accordance with any available water determination made in relation to the water source specified in Schedule 1, for a category or subcategory of access licence specified in Schedule 2, during this water year commencing 1 July 2025.
