Hinton 2 (Site 21) Repair Works

The Department of Climate Change, Energy, Environment and Water are continuing repair works as part of the Hunter Valley Flood Mitigation Scheme

As part of the Hunter Valley Flood Mitigation Scheme, the Department of Climate Change, Energy, Environment and Water will soon commence essential bank protection works at Hinton Levee 2 (Site 21) on the Paterson River near Woodville. This project forms part of the broader Hunter Valley Flood Mitigation Scheme and aims to restore a 370-metre section of damaged levee and riverbank, thereby reducing flood risk in the region.

Key information about the works

- **Work Purpose:** The repair works will address the damaged riverbank and levee. This will include the installation of a rock revetment to reinforce structural integrity, as well as vegetation clearance, minor excavation, and trimming to prepare the site for revetment installation.
- **Access to the Site:** Access to the site will be arranged in coordination with local authorities and stakeholders. Detailed access routes and temporary arrangements for plant and equipment will be finalised prior to commencement to ensure safe and efficient delivery of services.

Work Activities

The activities involved in the repair works include:

- **Site Preparation:** Clearing the area and conducting initial assessments.
- **Earthworks:** Excavation, grading, and preparation of the riverbank.
- **Rock Revetment Installation:** Placing rock materials to stabilise the bank.
- **Vegetation Control:** Removing excess vegetation to prevent interference with the works.
- **Final Inspections:** Carrying out quality checks and addressing any defects before project handover.

Our Work Schedule

- **Construction Phase:** Estimated to last approximately 34 weeks.
- **Key Milestones:**
  - Pre-construction activities (proposal, tendering, procurement) are underway.
  - Construction is expected to commence **22 July 2025**, with completion targeted for early February 2026, subject to weather and on-site conditions.
- **Work Hours:**
  - Monday to Friday: **7:00 AM – 6:00 PM**
  - Saturday: **7:00 AM – 1:00 PM**
  - No work will be conducted on Sundays or public holidays.

Communication and Coordination

Regular progress updates and site meetings will be held to ensure coordinated delivery of the project. For further details or inquiries, please contact:

- **Navid Sheykhlouvand, HVFMS Project Engineer:** navid.sheykhlouvand@dcceew.nsw.gov.au
- **Adrian Milne, HVFMS Manager:** adrian.milne@dcceew.nsw.gov.au

Community and Safety

All works will adhere to stringent safety protocols and environmental guidelines. Measures to minimise community disruption (including traffic management and noise reduction) will be implemented throughout the construction phase.

Contact Us

We value your feedback and are happy to address any questions or concerns you may have about the upcoming works. Please do not hesitate to get in touch with us:
