Murrumbidgee Regulated River Water Source

General security allocation increased by 6%

Category	2026–27 allocation	Account balance
General security	22%	35% (666 GL)

Key information

- This resource assessment is based on information as of 27 July 2026.
- Conveyance entitlements have also received allocation increments commensurate with the general security (GS) allocation increase.
- The current GS carryover balance is 276 GL (15%), which will be firmed over the next week.
- Allocation increment was possible due to strong inflows to the dams since last assessment and some reduction in commitments.
- Trade into and out of the Murrumbidgee is currently open. The Murrumbidgee IVT account balance is 16 GL as of 28 July 2026. Water users should monitor the WaterNSW website for daily information on the IVT account balance, the status of trade, and other important updates.
- The latest supplementary water access announcement was published on 30 July 2026. More information is available on WaterInsights website.
- We are trialling a concise statement at the beginning of each month with no impact on allocation quantum. This will be followed by the usual detail statement at routine mid-month publication.
